

Dear decision makers at the FCC,

I am writing this letter to you to ask that you do not allow a LPFM station to take priority over our FM translator station K-LOVE, heard on 91.3 in my area. I have two sons, ages 5 and 7, K-LOVE is the only station I can play in the car as we travel between school, church, music, the grocery store and seemingly endless numbers of sports practices. It is so heartwarming to hear my sons singing along in the backseat with Steven Curtis Chapman and the Newsboys, songs with lyrics that build up and spread positive messages, rather than the lyrics of most popular songs today. Many of my neighbors' children have also benefited from their exposure to such uplifting and God-honoring messages. You might find it edifying to tune in to a K-LOVE station yourself and witness firsthand that of which I speak. If K-LOVE would be displaced, there would be a huge void in our lives, because we would not listen to another radio station.

As well, K-LOVE broadcasts national news in a manner appropriate for family ears. Often this is the only news I get, because every other broadcaster I've heard in the media uses foul language and/or does not exercise discretion as to the crime details revealed in listening range of tender ears. In case of a national emergency, which is not unlikely for a nation at war, I, and many others in my community, would be informed by K-LOVE's news services. Again, I would not turn the radio to another station with my children in the car (which is almost always), and could miss valuable information in that event.

Once again, I ask you to please keep K-LOVE's signal clear and not to take away our station!

Sincerely, Steve and Amy Morgan
